The China Mail.

As we noted nine days ago, our contemporary of the Shanghai Daily News has given an opinion upon the communicated paragraph which appeared in the Liverpool Mercury, and has plainly stated what he thought of the statement that Governor Hennessy " has raised the Colony against him for what he has done to prevent slavery and to root out The Mails per British Contract Packet a terrible abuse." > As we have already stated, the bulk of the population of Hongkown supported the Governor in the view that there was "nothing illegal in the ordinary mode of adoption of Chinese children in this Colony;" but it may be noted here that, although a considerable section of the European residents: did think that something should be done in order to do away gradually with the power conferred by this system upon well-to-do Chinese, Sir John Pope Hennessy expressed his opinion that "no further change was needed, in the executive machinery now dealing with this matter." This does not lock as if Governor Hennessy were waging a war against the communityfor the abolition of Domestic Slavery! If we turn our attention to the more

revolting form of so-called slavery, commonly known as Brothel Slavery, it will be found, from the records of Governor Hennessy's administration in this Colony, that one of the most remarkable features of his five years' misrule was the neutralisation and disorganisation of the only Department that could deal effectively with this evil. In 1875 an Ordinance was passed, during Sir Arthur Kennedy's term of office, for the more effectual protection of women and children, under which any person convicted of having brought any woman into the Colony for immoral purposes became liable to a severe punshment. The greatest difficulties inaginable existed in the way of obtaining evidence by which this crime could be brought home to the offenders diffi culties which appeared to become insurmountable when considered in coniunction with the low moral sense shown by all concerned in such transactions, and the pressie and indifferent feeling which seemed to prevail amongst almost all classes of the Chinese Community on the subject. Still, some check was attempted to be placed upon these enormities by the Registrar General's Department, up to the time when Governor Hennessy began his efforts to destroy the Contagious Diseases Ordinances and to neutralise or put an end to all healthy effort put forth by the Protector of the Chinese. The grave complaints made by the Earl of Kimberley, as well as by nearly every medical officer of position belonging to the army or navy who had studied the subject, against the supineness of Governor Hennessy as regards the application of the law affecting this subect, are on record. The Secretary of State has repeatedly called upon Sir John Pope Hennessy to cease his quibblings and ill-conditioned snarlings, and set to work to grapple with the difficulties of this delicate but important ques-Instead of doing this, however, the Governor shuffled, and wrote against time, to the end. An inquest, adjourned from Monday, was resumed at the Magistracy this afternoon.

Mossrs J. F. Shuster, D. S. Marques, and C. L. Rümelin, regarding the death of removing a quantity of earth from some ground at the back of the Tung Wah Hospital, on Sunday forenoon, when the ground, which had been undermined and which had been loosened by the heavy rains, suddenly gave way and buried him. The enquiry was adjourned to allow of an officer from the Surveyor General's Department being present, and to-day, Mr Watts, overseer of works, appeared and stated that no permission had been granted to anybody to remove earth from the spot where the deceased had been buried. Several boards with notices prohibiting the removal of the carth had been erected on certain parts of the ground, and on those portions set apart for taking earth from, the removal was superintended by the overseer of works. The ground had become so dangerous lately that fresh notices had been put up, and, acting under the Surveyor General's orders, he had arrested several parties for removing earth from prohibited places. The jury returned a verdict of accidental death.

THE CHINA REVIEW. PUBLISHED BI-MONTHLY. TENTH YEAR.

TIHIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of " Notes and Queries on China and Japan," has reached its Tenth Volume. The Review discusses those topics which are uppermost in the minds of students of 'the "Far East" and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc.; etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure line been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

The Review department receives special attention, and endeavours are made to present a caroful and concise record Literature on China etc., and to gave critiques embodying sketches-of the Most recent works on such topics. OPINIONS OF THE PRESS.

"This number contains several articles of interest and value." - North-China Herale" "The present number of this periodical. * * * * opens with a review of the Foreign Trade of China during 1880. This is rather a new departure for a publication which professes to be purely literary; but considering the comparatively small circulation

it enjoys at present among the commercial communities of China, we hall the innovation as likely to recommend the Review to the notice of those who take an interest in. few matters beyond mercantile pursuits."-North-China Herald; fully maintains the high standard excellence which characterises that publication, and altogether forms a very interesting and readable numbers Me-

" Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hun," and the Notes and Queries are as usual very interesting."-North-China Daily News. "A substantial and reliable Review which

Balfour contributes paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Onths in Western Bornee and Java" might appropriately have been placed under a separate heading, complete the number."-H.K. Daily Press.

Trubner's Oriental Record contains the following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the necumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly. creditable to their respective authors Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh distinguished by its literary grace. Beside notices of new books relating to China and One Hour. 5 the East, which will be a useful feature of Half Hour, 3 the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure

its continuance.
